

The Events Hub is designed to enhance your fundraising efforts and has been built tailored to fit your organisation. The following guide outlines the user experience and how you manage your own content on the platform.

1. Getting on the platform.

To use the platform, users must be logged in. They can sign up using Facebook, Twitter or by entering a username and password.

2. Welcome to the platform

Once a user is successfully logged in for the first time, they are directed to their profile where they are greeted with a welcome message. This message is editable in the Settings screen.

Welcome to the Events Hub
Sign up to events, take part in activities and share your story of training, fundraising and doing your part!

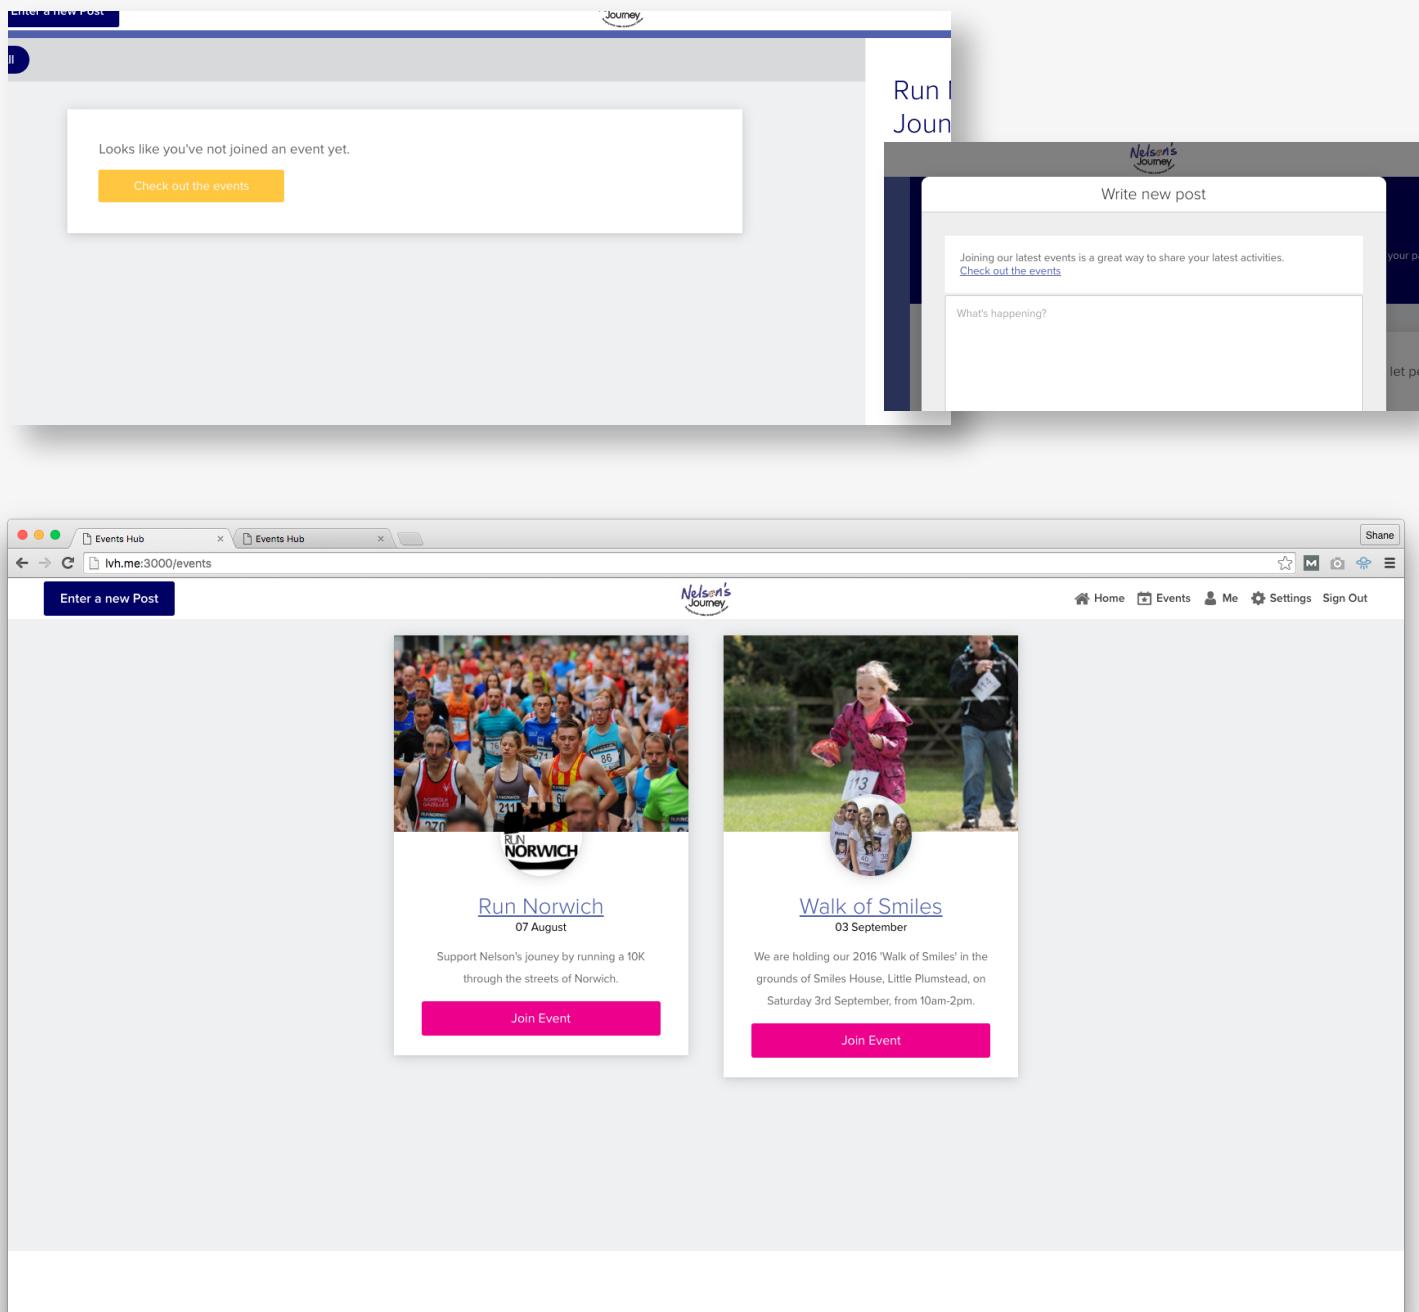

Looks like you've not posted anything here yet, why not let people know what you've been upto?

Enter a new Post

3. Taking part in events

After a user has first signed up to the platform, they are prompted throughout relevant parts to join events. These prompts direct them to the events page where a list of your current events is displayed.

To join events users click 'join event'.

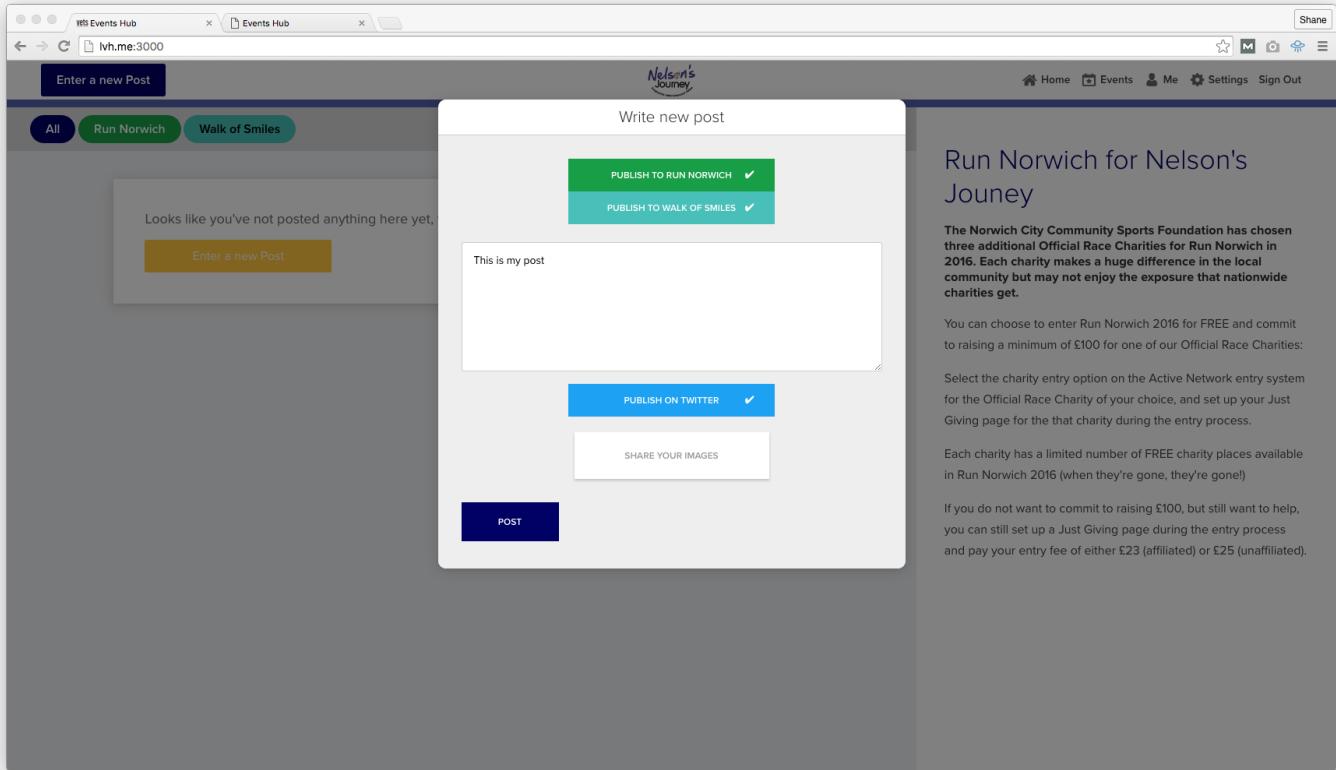

The image displays two screenshots of a web application's 'Events Hub' section. The top screenshot shows a modal dialog with the message 'Looks like you've not joined an event yet.' and a yellow 'Check out the events' button. The bottom screenshot shows a list of events with cards for 'Run Norwich' (07 August) and 'Walk of Smiles' (03 September), each with a 'Join Event' button.

Users can freely join and leave events from the events screen. Images and descriptions of the events can be managed in the events settings.

4. Posting to the platform

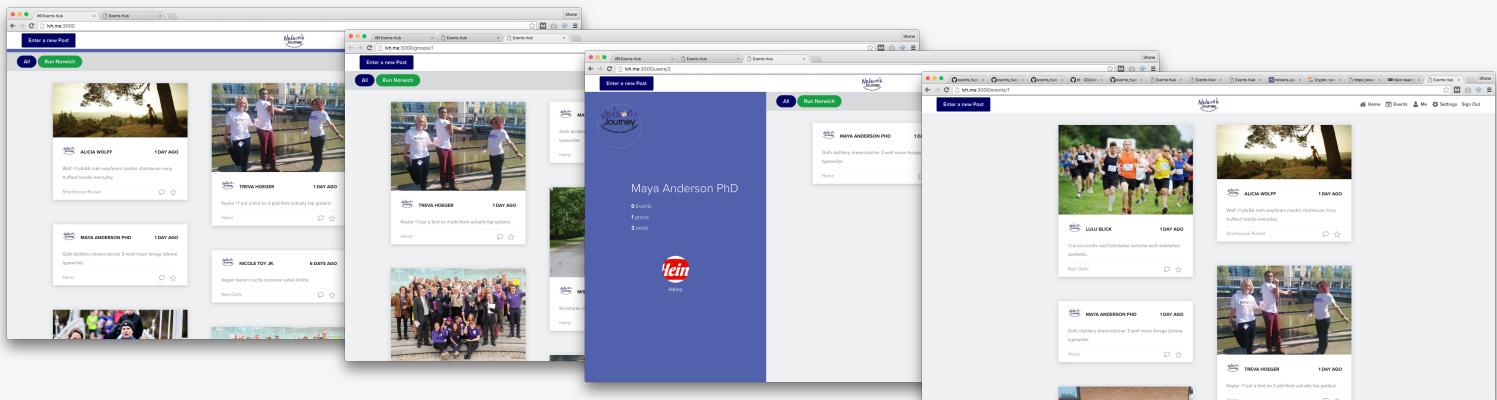

Users post to the platform by clicking the post to platform button in the top right corner of the screen. From there they can leave their message and photos, choosing the event(s) they wish it to be shared to, and the social network(s) they wish to share with.

5. Post feeds

Feeds of posts appear in multiple places throughout the platform:

- User pages show a feed of posts from that user
- Homepage shows the user messages from all groups and events they are a part of
- Group pages show all posts from that group
- Events pages show all the posts from that event

6. Users Posts

User posts display the message the user entered, and upto three photos which they shared through the enter post dialogue. Users can edit or delete posts by clicking the relevant links on the individual posts.

Users can interact with posts through commenting and favouriting posts. These interactions are controlled using the icons.

If selected, posts also appear in the relevant users Twitter and / or Facebook feeds with customisable hashtags and @mentions where applicable.

The screenshot shows a web browser window with multiple tabs open, all related to 'events_hub'. The main content area displays a user post from 'LULU BLICK' posted '1 DAY AGO'. The post features a photograph of a group of runners in a race, with one runner in an orange tank top clearly visible. Below the photo, the user's name 'LULU BLICK' and the timestamp '1 DAY AGO' are displayed. The post text reads: 'Cronut crucifix roof kickstarter sartorial wolf meditation aesthetic.' Below the text are interaction icons for 'Neo Optic' (comment), a speech bubble, and a star. At the bottom of the post is a text input field with the placeholder 'Say something...'. The top navigation bar includes a 'Enter a new Post' button and the 'Nelson's Journey' logo. Below the navigation bar are two buttons: 'All' (blue) and 'Run Norwich' (green).

7. Users Settings

If users want to update any of their details, manage groups or social networks, the settings link in the top right takes them to their profile settings page.

The screenshot shows a user profile settings page titled "Settings". At the top, there is a placeholder for "UPLOAD YOUR PROFILE IMAGE" with a large, light-gray circular button. Below it are four input fields: "Coralie Bernhard" (name), "eliezer@example.net" (email), "Password" (password), and "Confirm Password" (confirm password). A blue "SAVE CHANGES" button is located below these fields. A horizontal line separates this section from the "Social" section. The "Social" section contains two buttons: "Link Facebook" (with a Facebook icon) and "Link Twitter" (with a Twitter icon). Another horizontal line separates this from the "Groups" section. The "Groups" section includes a sub-section titled "Your Groups" with one item listed: "Heinz". There is also a link to "Create new group". The browser's address bar at the top shows the URL "lvh.me:3000/profile/settings". The top navigation bar includes links for "Home", "Events", "Me", "Settings", and "Sign Out".
